Regular Student Contact (Attendance)

The Ministry of Education has mandated that all schools track regular student contact as we work in a home learning model for the foreseeable future. The teachers will have the primary responsibility to communicate with students on a weekly basis as well as record this communication. This communication can take various forms such a phone call, an assignment posted on Fresh Grade or through email or a zoom meeting. It is important that your children are made available to communicate with their teacher. If a student does not have contact with their teacher within any given week, the principal will be notified. Upon this notification, one more attempt for contact with this student will be made. If still not successful, it will be reported to CISPG and the Ministry of Education.

Currently, the school's doors are locked to the public. If needing to make a payment, we ask that you drop a check off in the mail slot (no cash please) or ask Mr. Caguitla (ncaguitla@cispq.ca), our bookkeeper to forward you an E-transfer form. Once filled in, it can be returned via email to the address above.

We apologize for any inconvenience that this has caused. We continue to pray for our school community in light of COVID-19.
